

Manor Park Home Learning Tasks
Week 2 - 30/03/20 - 03/04/20
Horse Chestnut

Writing Focus

<https://www.onceuponapicture.co.uk>

Find the picture called 'Morning Surprise'.

With someone at home talk through the questions and write your answers.

How did the octopus get here?

Why is it wearing a hat?

Is it speaking your language? Do you understand what it's saying?

Where did the plants come from?

Look at the ideas / questions underneath and choose some of the activities to complete.

Science

To consolidate your work on Solids, Liquids and Gases can you identify solids, liquids and gases in your home? Which materials change from solid to liquid? (Hint think about something in the freezer), what might change to a gas? (hint - cup of tea), The gas one is tricky.... you might have to do some research online.

Art

It was super to see your rainbows, this week could you create a 'Three Legs of Mann'. You could draw, paint, use twigs, stones, lego etc Be as creative as you can! If you can, take a photo and ask message it to me on Itslearning - we can put them on the school Facebook page. I look forward to seeing them!

General / Other

Make sure you read everyday - remember reading doesn't always mean a book, you can read the back of a cereal packet, the instructions for a board game etc.

Well done to those who have logged onto TT Rockstars.

I've seen lots of photos of your beautiful rainbows :-)

Useful Links

[stories.audible.com](https://www.audible.com) - free access to children's stories.

Joe Wicks - go on youtube for your daily workout.

David Walliams - daily storytelling
<https://www.worldofdavidwalliams.com/elevenses/>

If an adult at home has a Facebook account, ask they to look at 'Isle of Play' page (this is the people who run Forest School). They are putting up lots of challenges you can do at home such as building a den

Maths Focus

Carry on following the White Rose videos and questions if you can, however we were going to start working on fractions and decimals last week and carry on for a few weeks. Don't worry if it is too tricky as I'll be making it a teaching focus as soon we get back to school. The unit after fractions and decimals is time so we'll skip ahead to that for now.

This week could you all focus on telling and write the time from an analogue clock, 12 hour clock and 24 hour clock and reading and writing time to the nearest minute.

If you have internet access this is a good tool to help teach telling the time:

<https://www.topmarks.co.uk/time/teaching-clock>

The website has lots of teaching activities and games related to time, lots of them are tablet friendly.

<https://www.topmarks.co.uk/Search.aspx?q=time>
